DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 9-11, the prior art alone or in combination does not teach the limitation of a method of producing a dielectric ceramic comprising the steps of: providing a perovskite compound having the general formula ABO₃ wherein the perovskite compound having a crystallographic axial ratio c/a of at least about 1.009, and a calcined material containing at least Ba, Ca, Ti, Si, R and M, in which R is at least one of La, Ce, Pr, Nd, Sm, Eu, Gd, Tb, Dy, Ho, Er, Tm, Yb, Lu and Y, and M is at least one of Mn, Ni, Co, Fe, Cr, Cu, Mg, Al, V, Mo and W.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

2. The applicant has argued that Mizuno and Yoshikawa are silent with respect to a method of producing a dielectric ceramic comprising the steps of: a perovskite compound having the general formula ABO₃ wherein the perovskite compound having a crystallographic axial ratio c/a of at least about 1.009, and a calcined material containing at least Ba, Ca, Ti, Si, R and M, in which R is at least one of La, Ce, Pr, Nd, Sm, Eu, Gd, Tb, Dy, Ho, Er, Tm, Yb, Lu and Y, and

M is at least one of Mn, Ni, Co, Fe, Cr, Cu, Mg, Al, V, Mo and W. The examiner finds this argument persuasive. Therefore, the examiner made decision to allow these limitations over the prior art of record.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nguyen T Ha whose telephone number is 571-272-1974. The examiner can normally be reached on Monday-Friday from 8:30AM to 6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dean Reichard can be reached on 571-272-2800 ext. 31. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
